

Job Forge Resume Optimization

Refine. Stand Out. Get Hired.

Employers continue to rely on algorithms to filter and judge applicants.

We plan to give job seekers a fighting chance with tools to tailor and automate their applications in response?

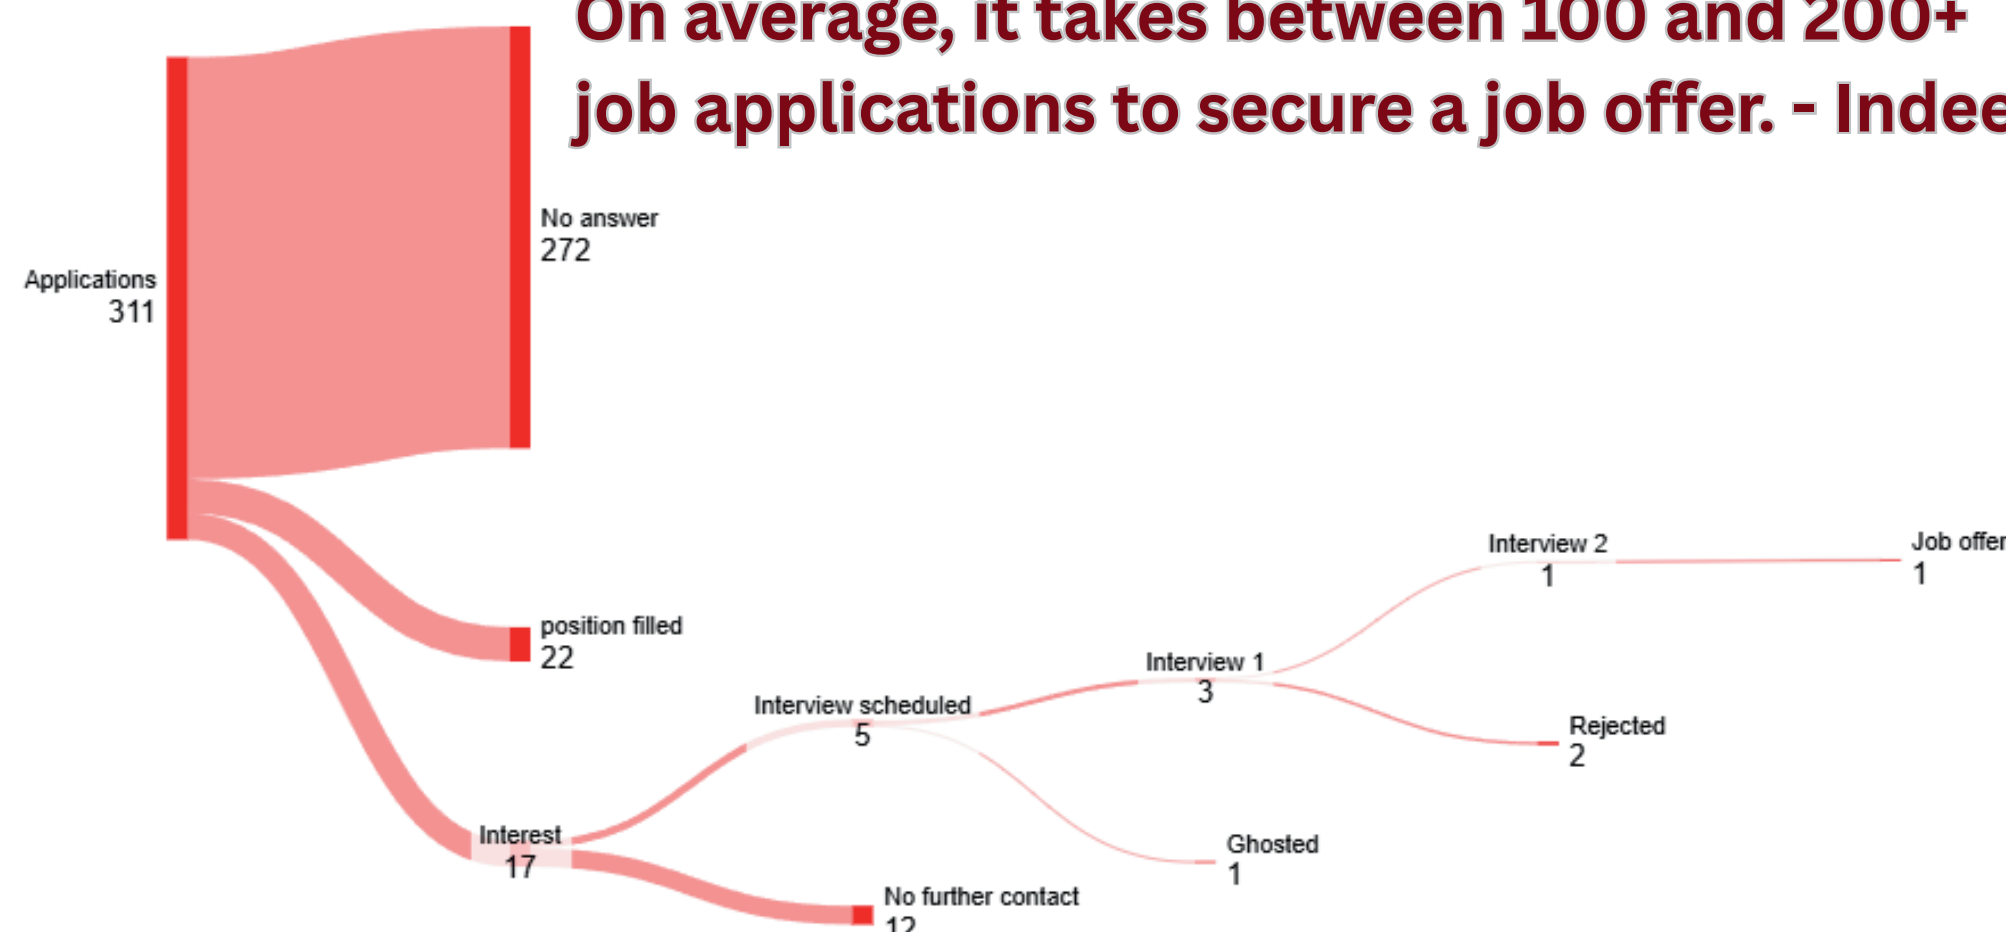

Join our mail list to stay up to date!

Most Common Resume Mistakes

- ✗ **Using the same resume for all applications**
Customize your resume to show employers why you're the best candidate for that specific role.
- ✗ **Failure to demonstrate and quantify results**
Results are best described as quantifiable results.
- ✗ **Poor Formatting**
"68% of hiring managers say they would reject a candidate because of a poorly formatted resume."
- ✗ **Not using JobForge**
Optimize your resume for specific job applications and test your resume fitness before you apply.

On average, it takes between 100 and 200+ job applications to secure a job offer. - Indeed

"Hiring managers spend as little as six seconds looking at a resume."
- Forbes

"83% of recruiters say they're more likely to hire a candidate who has tailored their resume to the job."
- Jobvite

"63% of recruiters like to get resumes personalized to the job position."
- Glassdoor

"72% of recruiters like to get resumes personalized to the job position."
- Glassdoor
